MAYSVILLE, KY., TUESDAY, MARCH 21, 1893.

NUMBER 101.

NEW NOMINATIONS.

A Number of Appointments Made by the President.

NAMES SENT TO THE SENATE.

Mr. Ennis of Louisiana Goes to France, Mr. Runyon of New Jersey to Germany, and Mr. Risley of New York to Denmark—Some of the Appointments Confirmed.

WASHINGTON, March 21.—The president sent yesterday the following nominations to the senate:

James B. Eustis of Louisiana to be envoy extraordinary and minister plenipotentiary of the United States to France.

Theodore Runyan of New Jersey to be envoy extraordinary and minister plenipotentiary of the United States to Germany.

John E. Risley of New York to be envoy extraordinary and minister plenipotentiary of the United States to Denmark.

James G. Jenkins of Wisconsin to be United States circuit judge for the Seventh judicial circuit.

Walter D. Dabney of Virginia to be solicitor for the department of state.

Charles B. Stuart of Texas to be judge of the United States court for the Indian Territory.

Ernest P. Baldwin of Maryland to be first auditor of the treasury.

Thomas Holcomb of Delaware to be fifth auditor of the treasury.

Wade Hampton of South Carolina to be commissioner of railroads.

To be marshals of the United States: David T. Guyton of Mississippi for the northern district of Mississippi, William H. Hawkins of Indiana for the district of Indiana, Abner Games of Arkansas for the eastern district of Arkansas, and James J. McAlester of the Indian Territory for the United States court for the Indian Territory.

To be attorneys of the United States: Frank B. Burke of Indiana for the district of Indiana; Clifford L. Jackson of the Indian Territory for the Indian Territory; and Joseph W. House of Arkansas for the eastern district of Arkansas.

Also the following postmasters: Julius W. Lancaster, Dardanelle, Ark.; Reese B. Hogins, Russellville, Ark.; William L. Isenhower, Bloomfield, Ind.; Louis E. Rowley, Lansing, Mich.; W. L. Berry, Madison, Neb.; William H. McCabe, Coshocot, O.; Guy W. Junker, Beaumont, Tex.; Frank Warring, Florence, Wis.; Paul J. Millard, Antigo, Wis.; Dewitt S. Johnson, Rhineland, Wis.; and Stephen A. D. Keister, Lander, Wyoming.

James B. Eustis, who is named as minister to France, was Mr. White's predecessor as a senator from the state of Louisiana in the Fifty-first congress. He is a native of Louisiana, 59 years of age and possesses legal abilities of the highest order. He is a graduate of the Harvard law school, and at the beginning of the rebellion entered the Confederate service as judge advocate on the staff of General Magruder. He also served in the same capacity with General Joe Johnston until the end of the war, when he resumed his law practice at New Orleans. After six years of service in both branches of the state legislature he was elected to the United States senate, where he served two terms, his service expiring March 3, 1891.

Theodore Runyan, the new minister to Germany, is one of the prominent figures of New Jersey Democracy and a man of pronounced ability. For 10 years he was chancellor of the state and has twice been a candidate for governor. At present he is practicing law in Newark, and enjoys the esteem of the people of the state, among whom he stands high as a lawyer, a gentleman and a man of fine attainments.

John E. Risley, nominated to be minister to Denmark, is a brother-in-law to Senator Voorhies and a lawyer of high standing in New York as well as in this city, where he became well known through his practice before the court of Alabama claims as a member of the firm of Risley & Flagg. Mr. Risley is about 49 years of age. He was born in Knox county, Ind., near Vincennes, and nearly 20 years ago went to New York, where he worked hard and with great success at his profession as a lawyer. He is a man of means with a handsome country seat at New Rochelle.

Wade Hampton of South Carolina, who is to be railroad commissioner, is a well known figure in southern history and in Washington, where he served with distinction and credit in the United States senate 12 consecutive years, finally yielding that post because of the antagonism of the Alliance element in his native state. He is almost 75 years of age, but is still full of force and energy. His record of service during the war of the rebellion is that of a brave soldier. He resigned his seat in the state senate to serve in the field, and afterwards governor of South Carolina in 1878 and '77.

James G. Jenkins, appointed judge of the Seventh judicial circuit, is a native of New York. He has resided in Wisconsin for the past 30 years, and has been for much of that time one of the foremost lawyers of the state. Mr. Cleveland, during his first administration, appointed him a judge of the district court and he has served in that capacity with great acceptability.

Thomas Holcomb of Delaware, appointed fifth auditor of the treasury, is a man of 48 years, and has been a lawyer all his life. This will be his first office.

The appointment of Walter D. Dabney of Virginia to be solicitor of the state department, is but the transfer of an official from one department to another. Mr. Dabney has been connected with the interstate commerce commission for some time, and has conducted the legal busi-

ness of the commission with marked ability.

Confirmations.

WASHINGTON, March 21.—The senate has confirmed the following nominations:

Josiah Quincy of Massachusetts to be assistant secretary of state.

Isaac P. Gray of Indiana to be envoy extraordinary and minister plenipotentiary of the United States to Mexico.

James B. Eustis of Louisiana to be minister to France.

Patrick A. Collins of Massachusetts to be consul of the United States at London.

Robert A. Maxwell of New York to be fourth assistant postmaster general. Wade Hampton of South Carolina to be commissioner of railroads.

Several postmasters and a number of army and navy promotions were also confirmed.

ACTION OF THE SENATE.

What Was Done In the Upper House of Congress.

WASHINGTON, March 21.—In the senate yesterday John B. Allen's credentials as senator from Washington, by appointment of the governor, was received and referred to the committee on privileges and elections.

The first step was taken towards the preparation of the new tariff bill by the introduction of a resolution, by Senator McPherson, calling upon the commissioner of labor for a statement showing the total cost and the labor cost of the production of iron and steel of various kinds.

Messrs. Sherman, Butler and Call offered resolutions changing one of the standing rules of the senate with reference to the assignment of appropriation bills to committees in the house.

In connection with a proposition to print additional copies of Indian appropriation act, Mr. Hale stated that he had occasion to examine the naval appropriation law and had found 90 errors. Most of them were errors of punctuation and spelling, while others were more important.

Mr. Cockrell stated that three of the most important appropriation bills had to be enrolled without any comparison, at the risk of forcing an extra session. The senate then went into executive session, and at 1:40 p. m. adjourned until Wednesday.

The question of electing the officers of the senate was also discussed briefly, and it was decided to allow the matter to go over until after the Democratic caucus.

MILITARY BALLOONING.

At the Big Fair You Can Find Out All About It.

WASHINGTON, March 21.—The army has secured its flying machine. The military balloon, which is to form part of the war department exhibit at Chicago, has been purchased by General Greely of the French balloonmaker, La Chambre. The balloon has a capacity of 13,000 feet and will cost 9,000 francs.

It is made of goldbeaters' skin and the contract price includes basket, ropes, bag and other accessories of military balloons. It is expected that the balloon will be in Chicago by the middle of April. A detachment of signal corps sergeants will be sent to the exposition grounds to join the force already there that practical illustration may be given of the methods of signaling in the army, including the operation of this military balloon.

CUBA'S LIBERATORS.

They Add Dynamite to Their Stores—May Leave Any Moment.

KEY WEST, Fla., March 21.—The expedition to liberate Cuba, judging from the present movements, will not end in mere talk. It is said that \$12,000 has just been carried away from here for the purpose of purchasing munitions of war. Three cans of dynamite have been found in the possession of the Cuban revolutionists at their military headquarters.

The annexation of Hawaii and revolutions pending in Honduras and Peru have added so much fire to the embers of rebellion among the Cubans that the departure of a filibustering expedition is daily expected. The revenue cutter has been ordered to remain at Key West for an indefinite period and be ready to sail at a moment's notice.

Down an Elevator Shaft.

SPRINGFIELD, O., March 21.—The elevator in the Arcade hotel dropped three stories with lightning speed, with a terrible crash yesterday. An unknown traveling man and Mike Coney, a boy, were in the cage. The former was uninjured, but the latter sustained some bad bruises. That both were not killed is a miracle.

Highway Robbery.

CINCINNATI, March 21.—At 10 o'clock Monday night Richard Rohne, president of the Chesapeake and Ohio Bridge company, was held up by footpads near his residence on McMillan street and robbed of \$500 in money and valuables.

No Cause for Alarm.

PARIS, March 21.—Nothing is known in this city going to confirm the advice said to have been received in Madrid to the effect that French troops had made a landing at San Domingo.

Will Be Shipped to England.

NEW YORK, March 21.—The body of Squire Abington Baird arrived here yesterday at 8:50 o'clock from New Orleans, and will be shipped to England on the Majestic tomorrow.

Alabama Town Burned.

NASHVILLE, March 21.—Athens, Ala., 100 miles south of here on the Louisville and Nashville road, was totally destroyed by fire yesterday. Several lives were lost.

SCIENTIFIC EVENT.

Testing an Instrument of Great Importance.

REVOLUTION IN TELEGRAPHY.

Handwriting Transmitted Over a Wire, Together With Pictures, Maps, Drawing, Charts, Etc.—Professor Gray Is the Inventor, and He Has Heretofore Kept His Great Discovery a Secret.

CHICAGO, March 21.—A scientific event of the first order will take place this afternoon in the Home insurance building, Chicago, and at 80 Broadway, New York, when the first public view will be given of Professor Gray's "Telautograph," which is to rank as one of the two or three leading features of the world's fair.

The instruments to be used have been manufactured at the Gray Electric company, Highland Park. Pictures of them are printed in The Evening Journal, and it is now a certainty that Gray has at last overcome the difficulty of writing through a wire. The receiving instrument is small and apparently simple. A pad of paper inclines upward toward a box that holds a spool or armature at each upper corner of the pad. From these spools issue two steel arms that come together over the pad. The pen is at the juncture.

The transmitting table has two wheels, one at the north, the other east. These wheels revolve like the printing-wheel of a "ticker." The pen which the operator holds is joined with both these wheels by a cord which makes its angle at the point of the pen. It is the movement of the pen which, acting on the wheels, makes them register a similar movement. The Journal prints in facsimile a drawing sent by wire and the same drawing as it was received. There is no essential difference.

In receiving, the paper is stationary during the writing of each line, and is then shifted for the next one. The reproduction is in the handwriting of the operator, and the operator can pause at any point and for any length of time, and upon recommencing the writing the receiving pen will continue to record from the point where it was interrupted. The operator can go back in the line and make a correction, addition or erasure at any point. The operator is also permitted to write at irregular speeds, and is under no necessity to distort his writing.

Whenever the transmitting pen is raised slightly, the same as in raising a pen or pencil from the paper in ordinary writing, the receiving pen is correspondingly raised, and vice versa. Whenever the end of a line is reached and the transmitting pen is moved back to commence a new line, or when it is necessary to go back in the line to make a change, or when it is desired to disconnect letters or words, it is only necessary to raise the transmitting pen in order to prevent the receiving pen from making a continuous mark.

To transmit and reproduce diagrams, maps or pictures, all that is necessary is to allow the transmitting and receiving pens to have the necessary "field" or range of movement in each direction. Every other point necessary to such reproduction is provided for in the instruments to be used in today's tests.

The transmitting pen is like any other pen save that it is connected at its points by the cords to the wheels.

The sidewise motions move the side wheel; the up and down motions move the upper wheel. In this way the smallest motion either way is caught on the wires.

The receiving pen preferably used by Gray is a fountain pen. It follows the movements of the transmitting instrument reproducing a substantial facsimile of whatever is written or traced by the latter. Some of the lines in the reproduction are slightly irregular or wavy, but not so much so as to detract from the appearance of the writing or to prevent the handwriting of the person at the transmitting instrument from being readily recognized.

A dozen complete stations have been fitted, and similar preparations have been made in New York. The exhibitions will last from 2:30 to 5 p. m., and will be in charge of Professor Gray in New York and F. W. Cushing in Chicago.

The utmost secrecy has been maintained in regard to the instrument up to the present time, the inventor's intention being that his success shall be exploited simultaneously throughout the country.

It is the belief of most Chicagoans that Professor Gray invented the telephone and was in some manner stripped of his merited honors and rewards.

BURIED IN THE RUINS.

Three Houses Destroyed and Two Men Killed at Toledo.

TOLEDO, March 21.—At least two persons are thought to be buried in the ruins of the provision store of T. D. Parker, on Monroe street, which, with two others, were completely wrecked last night by the falling of the west wall of the burned Wheeler Opera House. One of the two is possibly George H. Davis, who yesterday bought out Mr. Parker's interest.

The other buildings destroyed were those of Peter Sattler, harness store, which was more or less damaged in Friday morning's blaze, and W. A. Gilhouse, flour and feed store. Immediately after the wall fell an explosion of gas took place in the ruins and instantly flames shot up from the pile. They were soon subdued. The estimated loss is \$35,000.

Half a Block Burned.

LEBANON, Ind., March 21.—Half a block of business houses at Zionville were burned yesterday. Loss, \$30,000.

DESTRUCTIVE HURRICANE.

Many Lives Lost on the New Hebrides Islands.

SYDNEY, March 21.—A destructive hurricane swept on the 6th of March over the New Hebrides islands and New Caledonia, destroying many villages, causing great loss of life. A large number of the natives are said to have perished, and extensive districts were devastated.

The hurricane was the worst one ever experienced in the region. It raged incessantly for three days and the rainfall was enormous. Half of New Caledonia is flooded. In Tadjah alone 10 persons were drowned. The loss of property was at least \$120,000. Most of the settlers were ruined.

New Caledonia forms, with neighboring islands, the most important penal colony of France, and particulars are anxiously awaited as to the destruction of life and property at Noumea and other points.

The New Hebrides have but few white inhabitants, but among these are missionaries from America and Europe.

RAILROAD AFFAIRS.

A Receiver For the Cincinnati Southern Creates a Sensation.

CINCINNATI, March 21.—The appointment of President S. M. Felton as receiver for the Cincinnati, New Orleans and Texas Pacific Railway company, lessees of the Cincinnati Southern, is creating a great sensation in business and railroad circles.

The crisis has been pending for a long time, but it did not assume a serious form until last week, when the supreme court of Ohio decided the famous Doughty overissue case against the company, awarding the plaintiff \$300,000.

Official Statement Made.

NEW YORK, March 21.—It is stated officially that the control of the Cincinnati, New Orleans and Texas Pacific railway, for which a receiver has been appointed, is held by the East Tennessee, having been purchased by the issue of \$6,000,000 East Tennessee, Cincinnati extension bonds, which were also signed by the Richmond and Danville and endorsed by the Richmond Terminal company. The receiver was applied for by General Thomas, in accordance with the wishes of the Danville and Terminal interest.

For Assaulting an Ex-Priest.

LAFAYETTE, Ind., March 21.—The trial of Bartholomew J. Murphy, saloonkeeper, charged with assault with intent to murder upon the person of ex-priest George P. Rudolph of Clyde, O., anti-Catholic lecturer, was begun yesterday. When the latter recently endeavored to address a large audience in the opera house, the meeting ended in a riot. Murphy is one of the eight defendants accused of firing a pistol at Rudolph.

Another Bomb in Rome.

ROME, March 21.—Another bomb exploded here yesterday at the door of the Marignoli palace in the Via Conventini. The fragments showed that it had been made exactly on the pattern of those previously found in different parts of the city. The explosion did little damage beyond breaking a number of windowpanes and causing a great panic in the neighborhood.

The Shock Too Great.

CANTON, O., March 21.—Joseph Baker could not stand the shock of amputating one leg at the knee and the other at the ankle and died soon after the operation. He was the companion of Al-bright Kessler, who was instantly killed last Friday, when the two men stepped out of the way of the Fort Wayne train and in front of another. He was 64 years of age and leaves a family.

Church Burned.

STUBENVILLE, O., March 21.—The Holmes Methodist Episcopal church, in Smithfield township, on Short creek, was destroyed by fire Sunday afternoon. This was the oldest Methodist Episcopal church west of the Ohio river, and all prominent bishops and dignitaries of the church have come made from logs of the original church building.

Disappointment Killed Him.

EDINBURG, Ind., March 21.—E. K. Hosford, formerly postmaster at this place under Cleveland, died yesterday. Hosford has been trying to get the position again, but the president's announcement that he would not employ any former occupant of office disappointed him so greatly that it brought on the illness of which he died.

Chief Arthur Expected in Toledo.

TOLEDO, March 21.—Chief Arthur is hourly expected here and it is said that he will be attached by the United States marshal for his appearance in court in the matter of showing by what authority in the bylaws of the brotherhood he ordered his men not to handle freight from the Ann Arbor road. Traffic on the latter road is somewhat congested, despite the effort of the company to raise the blockade.

Religious Riots.

SHANGHAI, March 21.—Religious riots have broken out in Amora. Many native Christians have been tortured and a few have been killed. The English missionary was attacked by a mob of fanatics and barely saved his life by flight.

Position For Ex-President Harrison.

INDIANAPOLIS, March 21.—Ex-President Harrison is to be tendered the presidency of the Indiana State university at Bloomington.

BIDDING US GOODBY.

Another Letter From Princess Kalulani.

AN ADDRESS TO AMERICANS.

The Princess Was Very Brief and Courteous, Confessing Herself to Acknowledging Herself in Debt For Many Kindnesses—Other Hawaiian Affairs.

NEW YORK, March 21.—The Hawaiian Princess Kalulani, who will sail tomorrow on the steamship Majestic for Liverpool, where she will await advices from Honolulu, gave out to the press yesterday evening the following letter of thanks and farewell:

To the American People:
Before I leave this land I want to thank all those whose kindness has made my visit such a happy one. Not only the hundreds of hands I have clasped, or the smiles I have seen, but the written words of sympathy that have been sent to me from so many happy homes, have made me feel that, whatever happens to me, I shall never be a stranger to you again. It was to the American people I spoke, and they heard me, as I knew they would. And now, God bless you all for it, from the beautiful home where your fair first lady reigns, to the dear orphaned boy who sent me his loving letter and his prayers.

Mr. Davies, the friend and adviser of the princess, supplemented her letter with a statement, in which he said that they had no special mission to the United States, nor did they claim to have influenced in any way the status of the Hawaiian question.

A commission of gentlemen, he continued, who did not profess to represent the sovereign, the cabinet or the people of Hawaii, arrived in Washington early in February to invite the United States government to take (presumably by force) the territory of Hawaii, and to annex the same to the United States. These gentlemen were Hawaiians and were under oath to support the constitution of Hawaii. Revolution was the extreme right of every self-contained nation and sometimes the only cure for misgovernment, and he therefore did not protest against the right of revolution.

That the Princess Kalulani is the legal successor of Queen Liliuokalani is a mere incident of the Hawaiian constitution, and the Hawaiians have the right by revolution to set aside the monarchical altogether. He protested, however, against the right of any committee of gentlemen without the presence of consultation with the Hawaiian nation to attempt to transfer to any foreign government the nation and the flag that they are sworn to uphold. At first the matter was hardly appreciated in the United States, but as soon as the government realized what it was asked to do the president adopted the only proper course and dispatch to adjust this question.

The Princes Kalulani and her friends have in no way contributed to the result, but none the less are gratified that this course has been adopted.

Concluding, Mr. Davies expressed his grateful sense of the courtesy he invariably received from the press during his visit.

Mr. Blount Sails for Honolulu.

SAN FRANCISCO, March 21.—Ex-Congressman Blount and party boarded the Rush immediately upon their arrival here yesterday afternoon. The Rush then started on her voyage to Honolulu.

SAWMILL BOILER EXPLODES.

Four Men Lost Their Lives and Several Severely Injured.

LOCKBRIDGE, Ia., March 21.—A terrible accident, the particulars of which has just reached here, occurred at a sawmill on the Skunk river, three miles north of here on Saturday afternoon, whereby four men lost their lives and several were injured seriously. The engineer had allowed one of the boilers of the engine to run out of water.

A workman, noticing the danger and thinking to avert a calamity, sealed his own doom and those of his fellow-workmen by injecting cold water into the boiler, causing it to explode with a fearful report, tearing the building to pieces and blowing him to atoms.

The dead are: John Adams, saw tender; Engineer Gates, Assistant Engineer Baldozier, and a boy named Eshelman.

Among the injured are: Michael Hovern, owner of mill; Theodore Lillyblade; both probably fatally hurt. The remains of the dead men were all horribly mangled and in some cases hardly recognized by their friends.

Mexican Sierras on Fire.

MONTEREY, Mex., March 21.—Forest fires have been raging for several days past in the Sierra mountains, southeast of the city of Saltillo. Thousands of acres of timber have been destroyed and many families made homeless by the flames. Several goat herders have been reported as perishing. There has been no rain in the section for many months, and the entire country is as dry as parchment. The flames spread with remarkable rapidity, and all efforts to get them under control have proven futile.

Accident in a Foundry.

PITTSBURGH, March 21.—By the bursting of a mold in Marshall's foundry, corner of Thirteenth and Pike streets, yesterday afternoon, Patrick Moore was fatally burned, Joseph Schaeffer was seriously injured, and Michael Murphy and three others were badly burned. The injured men at the time of the accident were engaged in pouring molten metal from a large ladle into the mold. When about full the mold burst, scattering the metal

ATTENTION, DEMOCRATS.

The Democrats of Mason County are requested to assemble within their respective voting districts and at the places used as polls at the last November election, Saturday, March 25, 1893, at 2 o'clock p. m., and select a member of County Democratic Executive Committee, to serve two years or until their successors are chosen, by order of the State Central Committee.

The committee selected by said meetings will meet at Court house, Maysville, Ky., Saturday, April 1, 1893, at 2 o'clock p. m., for purpose of selecting a Chairman and Secretary for said County Executive Committee.

The present committee will preside at the temporary organization of meetings held within voting districts in which they now reside; and in such districts as do not contain a member of present Executive Committee the assembled Democrats will select their own temporary Chairman.

Remember the importance and benefits of organization, and hold meetings in your respective voting districts without fail; and select the most active and effective Democrats only.

J. N. KIRK, Chairman.

G. W. ROGERS, Secretary.

ANNOUNCEMENT.

It will be the aim from this on to have the Bulletin on press at 11 a. m., and news items and other matter should be handed in not later than 10 a. m. on day intended for publication. The earlier they reach the office the better. And advertisements of any length should be handed in the day before publication.

TAMMANY draws nearly \$15,000,000 a year in salaries from the city of New York, and will likely get some of the juiciest "plums" Uncle Sam has to distribute in that "neck of the woods." Great is Tammany.

HON. J. STERLING MORTON, the new Secretary of Agriculture, has already reduced the running expenses of his department \$10,000 a month. He doesn't believe in having a lot of fellows loafing around at "Uncle Sam's" expense.

THE Springfield Republican thinks President Cleveland has learned one of the secrets of longevity. He isn't worrying so much under the pressure as he did eight years ago. He has learned to let the other fellows do the worrying.

THE Ashland News has been "kicking" lately because about half of the revenue appointments in this Congressional district are "generally gobbled up" by Mason County Democrats. Mason County has five or six distilleries, and gets no more of the appointments than we are rightfully entitled to. We believe in "home rule" down this way.

Real Estate Transfers.

Thomas W. Tolle and wife to Moses Hull and wife, a house and lot on the Mt. Carmel pike; consideration, \$685.

Maggie D. Cooper and others to Thomas L. Best, 56 42-100 acres on the Fleming pike; consideration, \$6,445.98.

J. T. Long and wife to Frank Duncan, a house and lot in Sardis; consideration, \$900.

Joseph F. Keith and wife, by special commissioner Cole, to J. W. Gault and R. P. Gault, executors of E. L. Gault, 123 acres, 3 roads and 23 poles of land near Murphysville; consideration, \$2,000.

Asahel Woodward and wife to Peter I. Disher and John J. Disher, two tracts of land near "Woodward's Chapel," one containing 48 1/2 acres, and the other 93 1/2 acres; consideration, \$6,500.

River News.

The river continues falling at Pittsburg and intermediate points.

The St. Lawrence has gone back to her old schedule. She leaves Cincinnati now at 11 p. m., passing here at 8 a. m.; goes through to Manchester and returns about noon on her down trip. It is thought this will be the greatest convenience to the most people.

Fire at Falmouth.

The "fire fiend" has been busy of late. Falmouth was visited last night. A flour mill, a distillery and office, two dwellings and a cooper shop were destroyed. Full particulars have not been learned.

The Ladies.

The pleasant effect and perfect safety with which ladies may use the California liquid laxative Syrup of Figs, under all conditions, make it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of package.

A DAUGHTER'S TRIBUTE TO HER PARENTS.

BY MYRA GOODWIN PLANTZ.

[Rev. Thomas A. Goodwin, D. D., and Content L. Goodwin, on the fifteenth anniversary of their wedding, September 13, 1892.]

'Twas not the time that roses bloom,
But when, with smile of anilum cheer,
The golden rod with yellow plume
Stores up the sunshine of the year.
The orchards blushed o'er fruitage blue,
The corn bent with the ripening grain,
The grapes were purple on their vine,
And earth sang harvest home again—
The time of year
To love most dear.

A half a century ago,
One fair September perfect day,
A youth and maiden started on
With happy hearts, the wedded way.
They had no gifts of jeweled gold,
But were content with love for guide;
Nor cared what future years might hold
While they were walking side by side.
O, happy hour!
O, love's sweet power!

The years flew by, and children came
To find a welcome sweet and rare;
In want or plenty, just the same,
They knew no lack of tender care.
Two brave, strong hearts a shelter made,
By angels watched and hedged by prayer,
Where young lives grew—not were afraid;
For love made sunshine everywhere.
O, years too few!
When life is new!

And now these toilers sit alone;
For, one by one, with wings outspread,
To other nests the birds have flown,
Or upward with the happy dead.
These true hearts said, "O, God knoweth best;
He'll keep those in the battle's strife,
And these he soothe in blissful rest
Will welcome us to heaven's sweet life."
No darkened room;
No bitter gloom.

He gave his strength and manhood's power
To those oppressed, misunderstood,
Perchance to hasten on the hour
When God will call creation good;
And she, with woman's blessed art,
Relieved the sick and shared her store
With those in need with loving heart,
So none went friendless by her door.
O, trust life!
With blessings rife!

Now fifty years have passed away,
And children's children bless their name;
And they are rich in wedding day,
Though not with wealth nor carily fame.
For love has gone through all the years,
And God has walked beside the way;
Through paths of joy or seas of tears,
He led them to this golden day.
His tender care
Was everywhere.

Ah! such a wedded life throws scorn
Upon the paltry souls that cry:
"Is life a failure? Were we born
For nothing but to toil and die?"
These fifty years of trustful love
Shine like a star across earth's gloom,
And show life has its source in love,
And love is of immortal bloom.
Fond hearts, be true;
God waits for you.

PURELY PERSONAL.

Mr. J. B. Orr was down from Portsmouth Sunday evening, on a brief visit to his family.

Mr. J. N. Bradford, of Manchester, Ohio, spent Sunday here with friends on West Second street.

Miss Minnie Van Slyke, of Kingston, N. Y., will arrive this evening on a visit to Miss Belle Barkley.

Mrs. O. G. Layton has returned from Ashland, where she visited her daughter, Mrs. William Turnipseed.

Judge George P. Tyler and wife have gone to New Orleans on their bridal trip. They were married at Ironton last Thursday.

Councilman M. F. Kehoe returned last night from Chicago, where he has been for several weeks on business connected with the Cigar Makers' International Union.

Mr. Jno. Fleming, of Fort Scott, Kansas, was called to Murphysville last week by the illness of his mother, Mrs. Horace Fleming. Saturday he received word that his store at Fort Scott had been destroyed by fire.

THE Maysville correspondent of the Covington Commonwealth says: "It is worthy of mention that official affairs in Mason County are conducted very largely by officers who are confirmed old bachelors. For instance, County Judge Thomas Phister and County Clerk T. M. Pearce are bachelors, as is also Sheriff J. C. Jefferson. Circuit Clerk Isaac Woodward and his Chief Deputy, C. Burgess Taylor, and Commonwealth's Attorney James H. Sallee are on the bachelor list. Mayor E. E. Pearce, Jr., the head official in the city of Maysville, is a bachelor."

From what the BULLETIN has been told the Commonwealth's correspondent is not very well posted. If he were, he would not class all the officials named among the "confirmed old bachelors."

In Down Town New York.

"The trouble with you New Yorkers is, Quill," said the man from Boston—they had been looking over Trinity church—"that your buildings lack age; they are not venerable enough to command the respect of the soul instinct with the ideals of all that is hallowed by the past. Now, there is the Old South!"

"But what's the matter with that?" interposed Quill—they were strolling toward the Battery, and were opposite 45 Broadway—"what's the matter with that? There's Adams Express company. There couldn't be anything much older or more venerable than Adam, could there?"—New York Times.

A sister's duty is to persuade to virtue, to win to wisdom's ways, gentle to lead where duty calls, to guard the citadel of home with the sleepless vigilance of virtue, to gather graces and strew flowers around the home altar.

THE MARKETS.

CINCINNATI TOBACCO MARKET.

The offerings were less than during previous week, and are comparatively light. While the receipts are some larger than during the previous week they are still small, which is caused by the fact that the shippers have, as a rule, hung their purchases, and from now on until the latter part of May or June large receipts may not be looked for. Business during the week has been very satisfactory, with a firm, active market.

In old tobaccos the commoner and low grades, of which there is a very small supply in the present stock on hand, are taken at high prices. Common and medium leaf shows a firm, steady demand, and bring full prices. Good leaf is not offered in large numbers, but for that it sells the demand is active at full quotations. A new tobacco there is a strong market. Common trashes and lugs are in active demand, selling at full figures. Medium and common leaf is in active request, and full prices are received. For the small supply of good leaf the demand holds active and sales generally accepted.

Of the 1,199 hds new 52 sold from \$1 to \$3.95, 200 from \$4 to \$5.95, 297 from \$6 to \$7.95, 247 from \$8 to \$9.95, 347 from \$10 to \$14.75 and 45 from \$15 to \$17.50.

Of the 554 hds old 4 sold from \$1 to \$3.50, 6 from \$4 to \$5.50, 29 from \$6 to \$7.50, 44 from \$8 to \$9.50, 401 from \$10 to \$14.75, 66 from \$15 to \$19.25, 39 from \$20.75 to \$24.50 and 1,229.75.

LOUISVILLE TOBACCO MARKET.

Furnished by Glover & Durrett, Louisville Tobacco Warehouse.

On our market for the week just closed amount to 3,723 hds, with receipts for the same period of 2,310 hds. Sales on our market since January 1st, amount to 41,340 hds. Sales of the crop of 1892 on our market to this date amount to 47,723 hds.

There is not much change in the condition of our market this week on new burley tobacco. The market remains steady at the improvement which was reported last week. Receipts of the week were somewhat smaller than they have been for some weeks past.

THE COUNTY ASSESSMENT.

Some Interesting Figures For the Tax-payers of Mason—Increase Over Last Year.

Mr. John C. Everett, County Assessor, has kindly furnished THE BULLETIN with some interesting figures in reference to the assessment for this year.

The total assessed value of property in the county as made by him and his assistants and reported to the Board of Equalization amounted to \$9,326,020, an increase of \$85,915 over 1892. The increase in the assessment in this city was over \$100,000, but there was a falling off in some of the country precincts, which left the net increase as above given. One estate of nearly \$40,000 settled up in the past year was most all taken out of the county.

The Board of Equalization made a net total increase of \$226,370 in the assessment, which brings the assessment up to \$9,552,390. Of course this increase on the part of the Board is subject to revision yet, as those parties whose assessment was raised will be given a hearing.

The Board reconvenes Thursday, March 23, to listen to property-holders who have any complaints to make.

Mr. Everett reports a decrease of over \$200,000 in the assessment of personal property, resulting from the exemption of \$250 allowed to each housekeeper.

The Kentucky Homeopathic Medical Association will meet at Danville May 16 and 17.

Ten thousand dollars has been subscribed to start a "pants" factory at Carrollton.

W. S. MORRIS, of Grand Rapids, Mich., will succeed Wm. Garstang April 1 as Superintendent of Motive Power of the C. and O.

THE Aberdeen Gretna Green, after a suspension of four weeks, has been revived under the name of the Aberdeen Journal. Mr. Will Havens will continue as editor.

JOHN A. THOMPSON, one of Montgomery County's most prominent citizens, committed suicide Saturday. He had been afflicted with cancer of the face for several years.

The next election for county officers comes off in November, 1894, but Messrs. John L. Chamberlain, Frank P. O'Donnell and William T. Cole are already feeling the voters' pulse to see how it beats with reference to the office of County Attorney.

The Louisville Times says: "County Judge Anderson has decided that he has no right to order a special registration for Maysville voters." The Times has evidently got Maysville mixed up with Mayfield, or some other city. The registration of voters is not occupying our attention up this way very much just at present.

BRIDGET HINES, aged forty-eight, was smothered to death Sunday night at her home at No. 56 East Third street, Cincinnati. Two other women lived with her, all occupying the same couch. They all drank heavily Sunday. Monday morning the Hines woman was found with her face buried in the pillow. Her face was black, death having been caused by suffocation. The Post says she has a sister living near Maysville, who is reported to be wealthy.

MISS IDA SYMMES, President, and sixty other members of the Ladies' Columbian Club of Louisville have resigned, and a big row is on. It all grew out of the accusation that Miss Josie Carter, who was given the award for the best design for the Kentucky parlor in the Woman's Building of the World's Fair, was not the author of the drawings, and that Tiffany Mott, a nephew of Tiffany, the famous New York jeweler, drew up the plans.

REPUBLICANS had a hot contest at Ripley Saturday in their primary to nominate a Township ticket. J. D. Gardner, John Maddox and T. J. White were candidates for Township Treasurer, all good men. J. D. Gardner was elected. Mr. T. S. Thomson, for Trustee, had no competitor. Ed. Mefford was the successful candidate for Assessor. Mr. Thomson is an ex-Maysvillian. Democrats nominated the following ticket: Justice of the Peace, Wm. Masters; Treasurer, Gill Chapman; Trustee, John Haas; Assessor, W. R. Stephenson.

THE drunken "toughs" who assaulted and beat up brakeman Boyd on a C. and O. train a week or so ago had not been arrested at last accounts. Warrants are out for them. Boyd was shot in the arm and received a kick on the jaw that is giving him a great deal of trouble.

APPLE ROT.

And What Causes It—A Horticultural Paper of Interest to Fruit Growers.

Bulletin 44 of the Kentucky Experiment station contains the following statement: Probably no enemy of the orchardist destroys more fruit and is the occasion of more loss in Kentucky than the rot fungus, known to botanists as Gloeosporium versicolor."

The trees selected for treatment were sprayed four times with Bordeaux mixture during the season, and an equal number were left untreated. In summing up the results of the experiments the following statement is made. "Throughout the summer the trees to which the mixture was applied were more thrifty in appearance, owing to the more healthy green and better general state of the foliage. In every case the leaves began to fall sooner from untreated than from the sprayed trees. The proportion of rotting to not rotting apples was in every case lessened by spraying, and we are in a position to say, as a result of these experiments, that spraying with Bordeaux mixture will save from rotting 7 per cent. to 31 per cent. of the whole number of apples."

The conclusion arrived at is that the average increase in crop due to spraying is ninety-seven pounds of fruit per tree. This increase is due to several causes, among which may be mentioned the saving from rot and the prevention of scab on both foliage and fruit, thus increasing the size of the fruit.

These results are quite in accord with those obtained at the Ohio station, and one interesting fact may be noted, says the Portsmouth Blade. To test the relative keeping qualities of sprayed and unsprayed fruit, one hundred apple trees free from scab were selected from those that had been sprayed, and an equal number of scabby apples from those that were not sprayed. The apples were stored October 30, and examined at frequent intervals, all of the rotten fruit being counted and removed each time. This experiment was tried with Baldwin, Smith's Cider, Bellflower, Newtown, Pippin and Northern Spy. It was found at the end of two weeks that there were nearly three times as many rotten apples among the unsprayed as among the sprayed. There was somewhat less difference between the two lots later in the season, but the sprayed kept better than the unsprayed, and kept longer. In every case some of the sprayed were sound when all of the unsprayed had rotted.

These experiments, conducted in different States, and without co-operation, give essentially the same results, and serve greatly to strengthen the conclusions arrived at independently. They show that spraying with the Bordeaux mixture pays in the prevention of rot, if in nothing else. As a matter of fact, however, it pays in many other ways.

It is stated that three leading society girls of this city will appear shortly in crinoline.

NARONIC'S LIFEBOATS.

Two of Them Seen in Mid-ocean, Showing That the Vessel Is Lost.

LIVERPOOL, March 21.—The officials of the White Star line have received a report from the steamer Coventry, which arrived at Bremen yesterday, stating that the ship passed the empty lifeboats of the missing Naronic off the banks of Newfoundland.

Evidences showed that the last lifeboat passed by the Coventry was recently occupied by a portion of the Naronic's crew and they expressed the hope that the occupants had been picked up by a passing vessel.

They also expressed the hope that the occupants of the other boats had been rescued. All doubt as to the fate of the Naronic has been dispelled by the sighting of the lifeboats.

That she is now at the bottom of the ocean can not be disputed, but the cause of the disaster is, of course, still a matter of conjecture. It may be, judging from the latitude and longitude in which the boats were seen, that the steamer struck either a derelict or an iceberg, though it is still rather early in the season for the ice to drift so far south as the banks. It is hoped that the mystery of the loss of the steamer will soon be cleared up by the landing at some port of members of her crew.

A vessel which passed Deal yesterday evening signaled that she had on board 11 shipwrecked people, and the White Star officials say there is a strong probability that they are part of the crew of the Naronic.

The arrival of this vessel is eagerly awaited, as should the shipwrecked persons on board be from the Naronic, all conjecture as to the causes that led to the foundering of the steamer will be removed.

Still Have a Slight Hope.

New York, March 21.—Mr. H. Maitland Kersey, the New York agent of the White Star line, to which the Naronic belongs, still has hopes that the Naronic has not gone down and says: "The finding of the boats reported by the steamer Coventry does not in any way prove that the Naronic is lost. The sea may have carried these boats overboard, while the vessel, perhaps with her machinery disabled, was laboring against the storm."

This opinion, however, is hardly borne out by the facts, which show that the boats had been occupied and navigated. It is quite probable that some vessel has picked up the occupants of these boats, and they will eventually be heard from and the fate of the Naronic known.

The Sarnia in Port.

HALIFAX, March 21.—At 9 o'clock last night it was announced from the signal station that the steamer New Overdue, Sarnia, and the steamer Newfield, were off this port.

BONFIRES OF BOOZE.

Desperate Struggle Between Temperance and Antis in Kansas.

TOPEKA, March 21.—A great whisky war is on in Osage county. The people are up in arms against the Kansas City houses that are running joints in several towns. Rev. D. C. Milner, president of the State Temperance union, was called to Osage county two weeks ago and has lectured at several towns. The people are divided and bad blood is shown on all sides.

At Osage City Saturday a carload of liquors was seized and destroyed in the presence of a great throng. The liquors were hauled out of town to an abandoned coal shaft, where the bottles and demijohns were broken by the hundred and the contents poured into a hole in the ground. Beer kegs and whisky barrels were piled high on a bonfire and thousands of gallons of red liquor were lapped up by the flames.

Mr. Milner stood by and glorified over the proceedings, assisting in smashing the bottles containing the "liquid damnation."

The State Temperance union will wage a vigorous war on "joints" all over the state. Feeling is running high, and a genuine whisky war is imminent.

REPUBLICAN PROTEST.

Senators in Caucus Decide Against Reorganizing the Senate.

WASHINGTON, March 21.—The Republican senators in caucus have decided to fight the Democratic intention to reorganize the elective officers of the senate at this session.

It was the unanimous opinion that the contemplated move was a violation of all precedent and would be to the detriment of the working force.

Senator Sherman was appointed to make a protest to Senator Gorman, chairman of the Democratic caucus. If the protest is not heeded the Republicans will filibuster.

Fight Declared a Draw.

NEW YORK, March 21.—In the battle last night before the Coney Island Athletic club between Billy McCarthy of Australia and Jack McGee of Boston, McGee fought with gameness, giving as good as he received. At the end of 10 rounds honors were even and the fight was declared a draw. The contest between Dixon and Siddons also resulted in a draw after 12 very tame rounds.

Cleveland's Callers.

WASHINGTON, March 21.—The president received no callers yesterday except those with whom he had engagements. Among these were the secretary of state of Pennsylvania, W. F. Harry, the chairman of the national Democratic committee, and Attorney General W. W. Hensel.

Skipped His Bondsman.

PAULDING, O., March 21.—L. E. Bates, the clever Bellefontaine swindler, who worked this and adjoining counties last fall, and who was convicted and sentenced to 18 months' imprisonment but had his case carried to a higher court, has skipped his bond of \$3,000.

Slave Factory Damaged by Fire.

SYRUP OF FIGS

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

DAILY BULLETIN:

You know how it is yourself. Doesn't this picture bring up the good days of your youth? How we did enjoy the turkey mother roasted! Well, let us be thankful for the rare blessings vouchsafed us to-day, and with more mature judgment HENRY ORT proposes your good health and invites your attention to the proverb,

"Enough

Is as Good as a Feast."

But at the same time he invites your attention to his stock of goods, such as

WORK FOR US

a few days, and you will be startled at the unexpected success that will reward your efforts. We positively have the best business to offer an agent that can be found on the face of this earth. \$45.00 profit on \$75.00 worth of business is being easily and honorably made by and paid to hundreds of men, women, boys, and girls in our employ. You can make money faster at work for us than you have any idea of. The business is so easy to learn, and instructions so simple and plain, that all succeed from the start. Those who take hold of the business reap the advantage that arises from the sound reputation of one of the oldest, most successful, and largest publishing houses in America. Secure for yourself the profits that the business so readily and handsomely yields. All beginners succeed grandly, and more than realize their greatest expectations. Those who try it find exactly as we tell them. There is plenty of room for a few more workers, and we urge them to begin at once. If you are already employed, but have a few spare moments, and wish to use them to advantage, then write us at once (for this is your grand opportunity), and receive full particulars by return mail.
